

Choose Your Intention

Grab a pen and paper. Writing this out by hand makes it more powerful than typing it so use this page as your guide, not the place you fill it in.

1 What do you want to create?

On your paper, write down your intention.

2 What has to happen — and how will it feel?

List 3–4 things that need to be true for your intention to be real.

Next to each one, write the emotion you'd feel once it's true.

3 Turn it into your symbol

Pick a capital letter for your intention.

Draw it on your paper, then circle it with a wavy line.

The wavy lines represent the intention and the associated emotions.

You'll use this as your reference

Keep this page somewhere you'll see it. The act of writing it by hand is part of what makes it work.
